REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES. WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS REPORT IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. A production quota of 19,350 square meters of fine nickel screen has been set for the last quarter of 1953 at the Maschinenfabrik Tewa at Neustadt-Orla. It is hardly to be expected that this quota will be filled. Production in the third quarter fell short of quota by 5,000 square meters. Material shortages limit production in the wire-weaving shop. All the nickel wire screen produced goes to the Soviet Union. Each shipment is tested for strength, uniformity and chemical characteristics. Only pure nickel wire may be used. Deliveries of materials are very irregular. The plant's own trucks haul the material, mainly from Halberstedt by the Westernauserstrasse.
2. Part of the machines in the plant are being converted for the manufacture of perlon fabric both for the Soviet Union and for various plants in the Soviet German Zone.
